A SMART WAY TO PROTECT YOUR PROPERTY

- You've invested in quality equipment that is vital to your business—and service contracts represent a smart way to protect your investment. A fixed annual fee provides comprehensive service support on your equipment and creates many strong advantages in your business
- Solcar Electric, Inc. provides total facility electrical management that is cost-effective and simplifies maintenance and service management. By bundling some or all our services you can save time and money! Because no two businesses are the same, we structure our business contract individually tailored to your business. For instance, you may include the parking lot light poles, coach lights pendant lights, and garage lights. However, If you prefer, you can select to have only certain lights to be s under the maintenance contract. Anything not included in the contract will also be service upon your request and charge separately at a reduce rate.

PERFORMANCE ADVANTAGE

Properly maintained equipment will last years longer and experience less downtime—leading to increased profits and enhanced productivity. Equipment tends to be much better maintained while under contract—minor repairs and basic preventive maintenance are performed before small problems have a chance to become large problems. Professional and timely equipment maintenance doesn't cost—it pays!
